

CAMO[®]

HIDDEN DECK FASTENING SYSTEM

CHANGING THE **FACE** OF DECKING[®]

THE CAMO HIDDEN DECK FASTENING SYSTEM

Works on any treated lumber, hardwood, cedar, composite or PVC deckboard. CAMO Hidden Fasteners and a CAMO Marksman tool combine to deliver a fastener-free deck surface at a price that makes getting the job easy - and installing the deck even easier.

CHANGING THE **FACE** OF DECKING[®].

CAMO® HIDDEN FASTENERS

REDUCED TRIMHEAD

Provides a less visible point of entry.

STAR DRIVE

Offers more points of contact for better performance and reduces bit slippage and wear.

REVERSE UPPER THREAD

Pulls the board tight to the joist and provides a clean, finished entry.

LOWER THREAD

Pattern provides superior holding power.

REVERSE RAKE TIP

Removes deck material as it bores, allowing the screw to penetrate the board without splitting.

ACQ COMPATIBLE

ProTech Coated Carbon Steel

CAMO ProTech coated Hidden Fasteners exceed the requirements for installing pressure treated, PVC, composite and capstock deckboard materials in environments with normal exposure to the elements in accordance with ASTM B117.

316 Stainless Steel Alloy

CAMO Stainless Steel Hidden Fasteners are recommended as a best practice for all exterior deck installations and are necessary where superior corrosion resistance is needed. This includes any application in coastal, marine or waterway areas as well as near swimming pools; any deck surface that will be exposed to extreme conditions such as chlorine, wood strippers or ice melting chemicals; and when installing cedar, redwood and hardwood* deckboard materials where tannin release may cause staining and streaking.

INDEPENDENTLY TESTED

CAMO Hidden Fasteners exceed ICC-ES Acceptance Criteria for Deck Board Span Ratings and Guardrail Systems (Guards and Handrails) (AC174) (Section 4.1.4) in all wood, composite and PVC boards tested.

*When installing **hardwood decking** with stainless steel CAMO Hidden Fasteners, pre-drilling is recommended. Follow the Pre-Drill Instructions provided in all CAMO Marksman® tool Installation Instructions and on www.camofasteners.com.

Lengths:	Board Thickness:	Fastener Types:
1-7/8"	3/4" - 1"	Both lengths available in ProTech Coated Carbon Steel or 316 Stainless Steel
2-3/8"	1" - 1-1/2"	

Deckboard Material	Recommended CAMO Hidden Fastener
Pressure Treated Lumber	Stainless Steel or ProTech Coated
Composite or Capped Composite	Stainless Steel or ProTech Coated
PVC	Stainless Steel or ProTech Coated
Cedar	Stainless Steel
Redwood	Stainless Steel
Hardwood or Imported Hardwood	Stainless Steel

MARKSMAN® TOOLS

CAMO Marksman tools position CAMO Hidden Fasteners for side-angle entry to the deckboard. Designed for use with CAMO Hidden Fasteners only.

- CEDAR
- TREATED
- HARDWOOD
- COMPOSITE / PVC

MARKSMAN EDGE™ ● ●

- No gap between deckboards, or, use secondary spacers for multiple gap options
- Attaches to any drill
- Heavy-duty, contractor-grade tool

MARKSMAN PRO®-X1 ● ● ●

- Automatic 1/16" spacing
- Fits any nominal 6" deckboard (5-1/4" - 5-3/4")
- Dual screw guides for fast installations
- Heavy-duty, contractor-grade tool

MARKSMAN PRO ● ● ● ●

- Fits any nominal 6" deckboard (5-1/4" - 5-3/4")
- Automatic 3/16" spacing
- Dual screw guides for fast installations
- Heavy-duty, contractor-grade tool

MARKSMAN PRO-NB ● ● ● ●

- For narrow deckboards measuring 3-1/4" to 5"
- Automatic 3/16" spacing
- Dual screw guides for fast installations
- Heavy-duty, contractor-grade tool

MARKSMAN ● ● ● ●

- Fits any nominal 6" deckboard (5-1/4" - 5-3/4")
- Automatic 3/16" spacing
- Single screw guide
- Lightweight, ergonomic design for single deck application

DRIVER BITS

CAMO Driver Bits are engineered specifically for use with the CAMO Hidden Deck Fastening System. The built-in shoulder sets automatic depth of drive for maximum holding power, and prevents over-driving the screw.

- **CAMO Driver Bit** - 3"; for use with solid, ungrooved deckboards

- **CAMO Grooved Board Driver Bit** - 3"; higher shoulder for deeper penetration when using grooved deckboards

- **CAMO Pre-Drill Bit** - Recommended for use with the CAMO Hidden Deck Fastening System on hardwood installations
