

CannonBall:HNP Bigg-Frame™ Sliding Door Systems

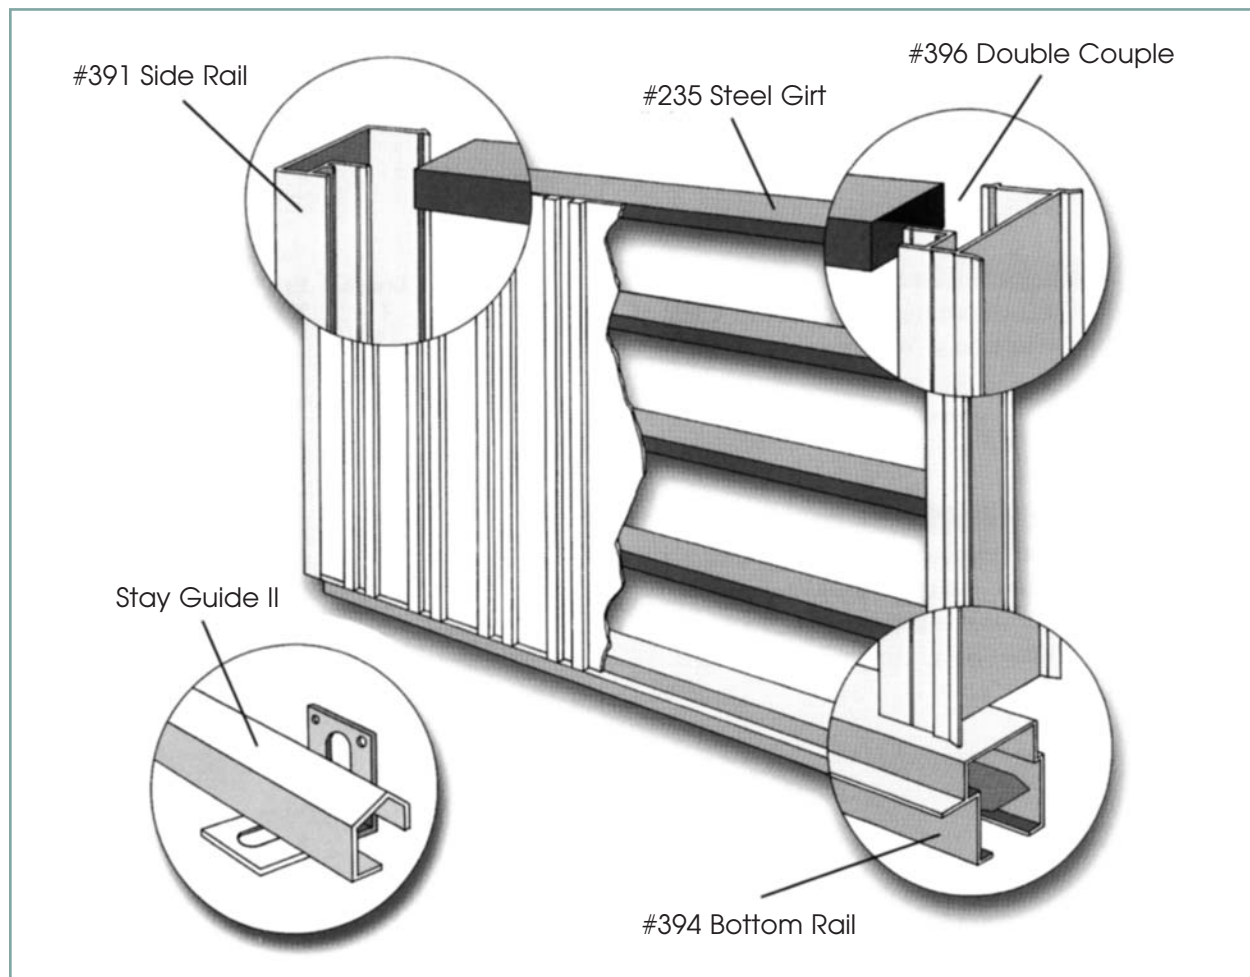

Complete the entire CannonBall:HNP door installation with track, trolleys, and Bigg-Frame™ sliding door system components.

Available in all popular sizes for trouble-free use with either wood or metal horizontals. Use with 2x4 wood, #230 aluminum, or #235 steel girt. Overall 4-1/2" thickness.

System is a time and money saver. All trim and flashing are durable, chip resistant finish, and ready to assemble and skin.

America's best combination of wind-resistant engineering features.

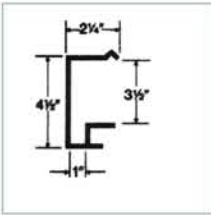

Available with optional self-drilling, self-tapping fasteners to help complete the job in a hurry.
